Machine rental		xxx	12,690
Card and paper supplies		xxx	3,875
Contract services		xxx	000
Total			16,565

## Planned Expansion or Reduction in F.Y. 1954:

None

## Functions Performed:

The major function of this installation is to maintain and operate a punch card index to intelligence information and upon request, to machine search and recall references to the indexed data for use in solving intelligence problems.

The requests for information are varied and receive individual consideration and processing. There are no lengthy routine machine runs.

This installation cannot be included in a machine pool operation because of security reasons and also because of the geographical location of the Office which it serves.
